

I would like to take a minute of your time and present you the many features and Functionalities that TravelStoreMaker.co.za developed recently.

We expanded our content offering and updated with a modern layout and design . Our Internet Booking Engine (IBE) is preferred by both Galileo and the Worldspan GDS.

We have integrated more than 15 hotel providers and includes:

<http://www.gta-travel.com/>

<http://www.touricoholidays.com/en/index.html>

<http://www.tritonrooms.com/worldchoice/> and many others.

Some of our integrated low cost airlines are

<http://wizzair.com>

<http://www.easyjet.com>

<http://www.skyeurope.com>

<http://www.germanwings.com>

<http://www.jetblue.com> and many others.

Among our rental car providers are Easy Car and Holiday Autos. Our product is designed to cover all the needs of travel agencies like yours and help you boost your online sales. You can use the IBE as a B2B and B2C solution.

Below you will find only small part of the benefits and functionalities that distinguish our Internet Booking Engine among many products on the market:

- keep all provider commissions and earn even more GDS segment credits with each booking
- satisfy your customers by offering a simple 3-step booking process through offer your customers dynamically packaged air & hotel and/or rental car content in one single booking transaction
- offer your IBE in 21 available languages
- availability of GDS published and CAT 35 fares, consolidator fares as well as non-GDS low-cost carrier and charter air fares
- load your own net fares or market fares for your exclusive use or redistribute these to third parties
- create branded affiliates sites with the necessary features and functions for consumers, corporate travelers or other travel agencies (non-IATA)
- analyze your online bookings by using TravelStoreMaker's comprehensive reporting functionality
- auto ticketing
- integrated Google Maps for hotels
